

PRESS RELEASE – FOR IMMEDIATE RELEASE

Once the Exclusive Domain of Professional Car Dealerships, these Garage Transformations Are Now Available to Homeowners

BRAMPTON, ON, August 24, 2009 // – Silent Quest, a single source supplier for the Ultimate in Garage Transformations, is pleased to announce the launch of their website at www.silentquestinc.com. Atypical in its simplicity, the Silent Quest website reaches out to homeowners seeking a better option for transforming their garages. This is a resource that focuses squarely on providing homeowners with the most versatile and best quality solution available.

Silent Quest helped design and project managed the installation of a customized NEOS work bench system at the Orange County Chopper (OCC) facility in New York this past April, 2009. Silent Quest also designed and installed 21 service bays with the NEOS product for a busy Ferrari/Maserati dealership in Ontario Canada. As well as many other automotive dealerships in across Canada & the USA including BMW / Mercedes Benz / Honda / Toyota and Lexus. Dealerships looked for help to organize and visually enhance the look of the service area with NEOS.

Interestingly, the dealership owners loved having NEOS in their shops so much they called for a NEOS system to be created for their home garages. The NEOS Chameleon gives home owners access to the same professional quality product that was only available commercially. Now astute homeowners look to company President Dave Thomson and the Silent Quest team to transform their residential garages, using the NEOS Chameleon as the centrepiece.

Silent Quest is the exclusive distributor of NEOS Chameleon, the high end scalable, adaptable and reconfigurable storage solution created and manufactured by industry leader, Nelson Industrial. See NEOS in action at www.nelsonindust.com for automotive needs and www.neoschameleon.com for home requirements.

Dave explains that “We have a passion for solving problems and delivering ‘real world’ solutions that’ll excite our clients. We’re with them before, during and long after the project has drawn to a successful close. We believe that the garage is way more than just a place to park your car – it’s a rich opportunity for extending your living space. Our clients have worked hard to be where they are today. It’s an honour to work with people who want to Escape to a place where it’s about you and how you like to spend your time. We just do business differently than others”.

An important addition to the residential marketplace, Silent Quest delivers a remarkable visual solution that addresses the needs and wants of today’s most discriminating consumer. NEOS Chameleon is poised to transform the way people view the role of the garage and how it can play in their lives.
